September 17, 1980

MEMORANDUM FOR: DAVID AARON
FROM: THOMAS THORNTON
SUBJECT: Mini-SCC on Afghanistan Refugees - Food

The agencies will expect you to say something about the framework of this meeting. I guess you will want to make the following points:

-- We have noted the possibility of severe food shortages in Afghanistan this winter. What are the facts? Who will be affected? What, if anything, would we want to do about it?

-- The growing number of refugees in Pakistan must also be causing problems. Is everything well in hand on that front? Are there additional imaginative ways that we could get more resources to Pakistan to help them with the refugees (e.g., PL-480 -- be sure to raise that specifically since there is a problem there.)
